PUBLIC RECORDS REQUESTS

The District recognizes that records created, prepared, owned, used, and maintained by the District are the property of the public and shall fully comply with Oregon Public Records Law. Oregon Revised Statute 192.324 describes public access to copies or inspection of public records; and authorizes a public body to establish fees to reimburse for the actual cost in making public records available.

Fees. All fees will be applied in accordance with the District’s established fee schedule and no fee over \$25 will be applied without prior notice provided to the requestor. For fees over \$25, the District will request written authorization from the requestor before proceeding with the records request. If costs exceed the estimated amount, the District may seek payment for the partial installment of records produced before continuing with the request, or written authorization for the additional charges. If costs are less than the estimated amount, the requestor will only be charged for the actual costs incurred by the District to provide records.

Fee variance and waiver. When it is determined that providing public records at a reduced fee or without costs would be in the public interest, the District may authorize a reduction or waiver for processing the request. The District recognizes the right of the public to access, inspect, and copy public records and will only apply fees for the actual costs incurred by the District to compile, summarize, and tailor responses to requests.
