TRUST MANAGEMENT

The Board of Directors controls the Pension Plan and the investment mix policy, while the District's Fire Chief/Administrator serves as advisor to the Board and authorizes increases in benefit payments.

Day-to-day administration of the plan, including annual trust report filings with the Internal Revenue Service, and payments to retirees, is managed by the District's Finance Directorate. As all trust funds have been utilized, the District is now making contributions to the Trust Fund in order to meet pension benefits each month.

PENSION BENEFIT

Two groups of retirees are covered under the Pension Trust Fund. One group consists of those individuals who retired prior to amending the plan in 1976. The second group is those individuals affected by the Amended and Restated Plan of 1976, and who retired on or before July 15, 1983.

The original retirement plan document stipulates that the retirees receive a benefit of sixty percent of their current salary range for the job classification held at time of retirement. Thus, their benefit increases are directly tied to raises of the existing employee group. There is one retiree under this plan and three beneficiaries.

Under the 1976 Amended and Restated Plan, benefits were determined by multiplying a percent, which is the value of the number of years of completed service, times two percent per year, by the final average salary. The cost of living increases for the retirees under the 1976 Amended and Restated Plan are limited to two percent per year. There are two recipients under this plan.
